Augmenting Authentic
Ayurveda
for the modern age

PANKAJAKASTHURI AYURVEDA MEDICAL COLLEGE & PG CENTRE

Learning is a process involving multiple dimensions such as cognitive, affective, and psychomotor. Ayurvedic Medical education in the modern era incorporates all three levels of learning involving thoughts, emotions, and behavior.

Pankajakasthuri Ayurveda Medical College & PG Centre inculcates the spirit of this educational philosophy and focuses on the overall development of an Ayurvedic student. Our aim is to equip modern-day Ayurvedic students to face the medical challenges in the modern world with confidence and find contemporary solutions for them. We try to train them what to think, what to feel, and what to do in the context of Ayurveda in the twenty-first century.

TOP-RANKED PRIVATE AYURVEDA COLLEGE IN KERALA UNDER KERALA UNIVERSITY OF HEALTH SCIENCES (KUHS)

Pankajakasthuri Ayurveda Medical College & Hospital was established as the First Self-Financed Ayurveda Medical College in Kerala. It is a fully functional Ayurveda Medical College, supported by a 150-bed hospital and guided by the National Commission for Indian System of Medicine (NCISM) with state-of-the-art infrastructure and highly professional and qualified teaching faculty. The institution offers comprehensive Ayurveda education programs, encompassing BAMS, Postgraduate, PhD, Ayurveda Pharmacy, Ayurveda Nursing, and Ayurveda Panchakarma courses. It maintains high standards in theoretical, practical, clinical training, and research facilities for both undergraduate and postgraduate levels.

PANKAJAKASTHURI HERBAL RESEARCH FOUNDATION

Pankajakasthuri Herbal Research Foundation is one of the most credible and prominent names in Ayurveda research in India. The foundation was established in 1988 as the consummation of an enduring vision of Padma Shri Dr. J. Hareendran Nair, who always wanted to adapt Ayurvedic concepts to evolving lifestyles. By investing in recognized and prolific human resources and emulating best practices and indulging technology, Pankajakasthuri has transitioned from a makeshift R&D centre to one of the most reputed and reliable Ayurvedic organizations in the country. Since its inception, our R&D Department has been dedicated to developing standardized herbal formulations against various diseases and disorders, isolation of high value phytochemicals as well as acquiring new, advanced technologies for the formulation of various herbal extracts.

The R&D department of Pankajakasthuri Herbal Research Foundation plays a crucial role in the modernization of Ayurveda, combining traditional knowledge with contemporary scientific methods. Here are the ways in which the R&D department contributes to the modernization of Ayurveda:

- Scientific Validation
- Standardization and Quality Control
- Integration of Modern Technology
- Development of New Formulations
- Clinical Research
- Educational Initiatives
- Collaboration with Scientific Institutions
- Globalization and Regulatory Compliance
- Innovation in Therapies

The R&D team has dedicated scientists under a highly experienced director actively working in the areas of process, analytical, and discovery research. The department is a cornerstone of innovation and strategic development within the organization.
